

# ETERNAL CHURCH

## WORSHIP TEAM | GETTING SET UP

Welcome to the team! Here are a few of the next steps to help you get set up, equipped, and ready to serve with the worship team.

### 1. ORDER SOME IN-EAR MONITOR (IEM) HEADPHONES

#### Recommended Models:

- [KZ ZST Dynamic Hybrid Dual Driver In Ear Earphones](#) [black, no mic] ≈ \$20
  - ▶ These are the best entry-level in-ears for singers and musicians — highly rated by worship leaders around the world for their sound quality and value.
- [KZ ZST Dynamic Hybrid Dual Driver In Ear Earphones](#) [color, no mic] ≈ \$20
  - ▶ Same headphones as above, just with a more colorful shell.
- *Looking to invest in higher-quality in-ears? Let us know — we can help you choose a set that fits your needs and budget.*

#### Optional Accessory:

- [In-Ear Headphone Case](#) [black] ≈ \$8
  - ▶ A small, protective case is a great way to keep your in-ears organized and tangle-free.

### 2. GET SET UP ON OUR ACCOUNTS

You'll need to create two accounts before your first rehearsal:

#### Planning Center Online (PCO):

- You'll receive an email invitation to set up your account.
- Please remember your password — you'll need it to log in to our iPads.

- We recommend **not enabling two-factor authentication**, so we can save your login on the church iPads when setting up for Sunday.

### MultiTracks.com:

- After your Planning Center account is active, you'll receive an email to set up this account. As with Planning Center, please remember your password, though you should only need to log in once.
- This account links with Planning Center and gives you access to audio files known as **RehearsalMix**.
- RehearsalMix allows you to listen to isolated tracks (vocals, drums, keys, guitars, etc.) so you can easily learn your parts.

## 3. GET THE ESSENTIAL APPS

### In-Ear Monitor Control:

- **MXBus (iPhone)** – Used to control your in-ear monitor mix. Connect to the Eternal Wi-Fi and the app will automatically find the soundboard. *(I would suggest the \$2.99 Pro Upgrade.)*
- **M32-Q (Android)** – Same purpose as MXBus. Connect to Eternal's Wi-Fi to access the soundboard. Android users will need the IP Address of the soundboard: **10.16.50.195**

### Worship Service Resources:

- **Planning Center Services** – View the weekly set list, listen to songs, read notes from your worship leader, and prepare for rehearsal. (I use this app primarily for seeing the entire service order and listening to the songs in the car.)
- **Planning Center Music Stand** – View chord charts and sheet music. You can also take notes (which save to the cloud) directly on each page. (I use this app primarily for viewing chord charts on an iPad.)

## 4. ADDITIONAL INFORMATION

### Wi-Fi Network:

- This is the network for the **Worship Team only** — please do not share it publicly.
  - ▶ Network: **Worship Center**
  - ▶ Password: **3ternalForever!**

### In-Ear Mixing Guide:

- Lastly, check out this helpful resource from The Worship Initiative:
  - ▶ [In-Ear Mixing Guide \(PDF\)](#)
